Single Seal Gland for Unarmoured Cable featuring a Hose Connection

Ex db : Ex eb : Ex nR : Ex ta : IP66 : IP68

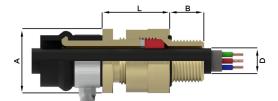

Gland featuring controlled displacement sealing

Aluminium (A) / Brass (B) / Stainless Steel (S)

Locknut & Nylon (K), Fibre (V) or PTFE (H) IP Washer

Fixed Hose Connection

Multiple Certification

Including Earth Tag

Quantity per kit

Nickel Plated

Gland shell size

Including Serrated Washer

M20 x 1.5mm Male Entry Thread

Stainless Steel (ACSSW)

IP66 & IP68 (50 metres - 7 days)

Neoprene Seals -35°C to +90°C

Silicone Seals -60°C to +180°C

Electroless Nickel

Aluminium, Brass or Stainless Steel

PRODUCT DESCRIPTION "A*LCH**" type glands are type glands are certified Flameproof Ex db, Increased Safety Ex eb, Restricted Breathing Ex nR and Dust Protected Ex ta. They are suitable for use in Zone 1 and 2 for Gas Groups IIA, IIB and IIC and additionally for use in Zones 20, 21 and 22 for Dust Groups IIIA, IIIB and IIIC. Commonly referred to as "stuffing glands", they provide a controlled pull resistant environmental displacement seal on the cable outer sheath, minimising damage to cables that exhibit "cold flow" characteristics. The gland maintains IP66 & IP68 to 50 metres. It is supplied with an IP O-ring seal as standard on metric entry threads. The gland features an extended tail for connection of suitable hose.

Gland size does not necessarily equate to the entry thread size.

The IP O-ring seal is only available on metric entry threads. IP washers can be supplied for

Dimensions (A) & (B) may differ for glands with non metric entry threads. Please refer to our "Thread Reference Tables" for specific dimensions.

Assembly instructions must be read prior to installation and adhered to in full.

Peppers supply products with parallel entry threads that conform to the flameproof threaded joint requirements of IEC/EN 60079-1 and other equivalent standards. We usually incorporate a thread run out according to general machining techniques and parts will not have a full form thread for the entire length

Peppers Cable Glands Limited will not be held responsible for clients' installations where this has not been taken into account.

Nhen selecting IP Washer & Shroud material for use with glands, please be aware of the accessories temperature range to ensure they are suitable for the intended installation

It is the installer's responsibility to ensure that the flexible conduit is secured correctly.

If fit testing is required for specific hosing please contact Peppers

🌑 Where approval in addition to UKEX, ATEX and IECEx is required, this must be clearly requested at time of enquiry / order.

* Gland sizes 12 not available in aluminium
