

## Declaration regarding SCIP

Peppers Cable Glands Ltd designs, manufactures and supplies industrial and hazardous area cable glands, thread adaptors, stopping plugs and associated accessories to British and International Standards.

This declaration is made in regard to the EU SCIP (Database for information on Substances of Concern In Products) maintained by the European Chemicals Agency (ECHA) and managed under the Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (REACH) established under the Waste Framework Directive (WFD) 2008/98/EC.

Companies supplying articles containing substances of very high concern (SVHC) on the Candidate List in a concentration above 0.1% weight by weight (w/w) on the EU market have had to submit information on these articles to ECHA, from 5 January 2021. The SCIP database ensures that the information on articles containing Candidate List substances is available throughout the whole lifecycle of products and materials, including at the waste stage. The information in the database is then made available to waste operators and consumers.

As a UK company we cannot register products with ECHA but will assist our European customers with information for that purpose.

Typically, this is applicable to all standard brass articles used in assemblies or as adaptor reducers and typically has a lead (Pb) content of 3.7%. It does not apply to aluminium or stainless steel products.

- All manufacture is in England and may be exported to countries in the EU.
- All product is built to order consisting of 1 item to many thousands of multiple product types.
- There is no preassembled product held in stock.
- The product is complex due to the considerable number of possible variants.
- The business does not have any assigned SCIP numbers.
- ECHA Substance ID Brass with lead content: List no.: 603-111-8.
- Concentration Range  $\geq 1.0\%$  w/w and  $< 10.0\%$  w/w.
- Safe Use Instruction No need to provide safe use information beyond the identification of the Candidate List substance.
- Material Category metal > brass.
