

Declaration of Compliance: Proposition 65 (California, USA)

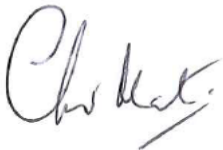

Peppers Cable Glands Ltd designs, manufactures and supplies industrial and hazardous area cable glands, thread adaptors, stopping plugs and associated accessories to British and International Standards.

This statement is made in regard to The Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"; California, USA also known as "CA Prop 65").

The product range does contain listed chemicals: Lead as an alloying element of brass in brass-based assemblies, nominally 3.7% by weight of lead in brass. The CAS number for the brass used in Peppers products is 12597-71-6.

Brass products may be plated with a nickel plating of nominal thickness 6µm (0.24 thou). The CAS number for nickel used in the plating process is 7440-02-0.

All Peppers products when used in normal operation that they were designed for, do not exceed the exposure level significantly and pose no known risk of cancer and/or are below levels observed to cause birth defects or other reproductive harm. The articles of the product are only handled in the commissioning and decommissioning of installations, or periodic inspection. They are not designed or intended to carry water for drinking or any other purposes.
